

Shubhneel Industries™

Precision, to the core

Connect With Us

www.shubhneel.com

info@shubhneel.com

Laying the strong foundation of Shubhneel Industries in Summer 2006, we have been industrious about building products with utmost precision. We have instilled the adoption of the most accurate methods and scientific principles to build a standard in precision manufacturing. We have built an ecosystem of constant innovation. It allows us to proudly place in the industrial revolution 4.0. The striving growth is a result of a strongly embraced progressive work environment.

Mr. Souvik Pal
(Managing Director)

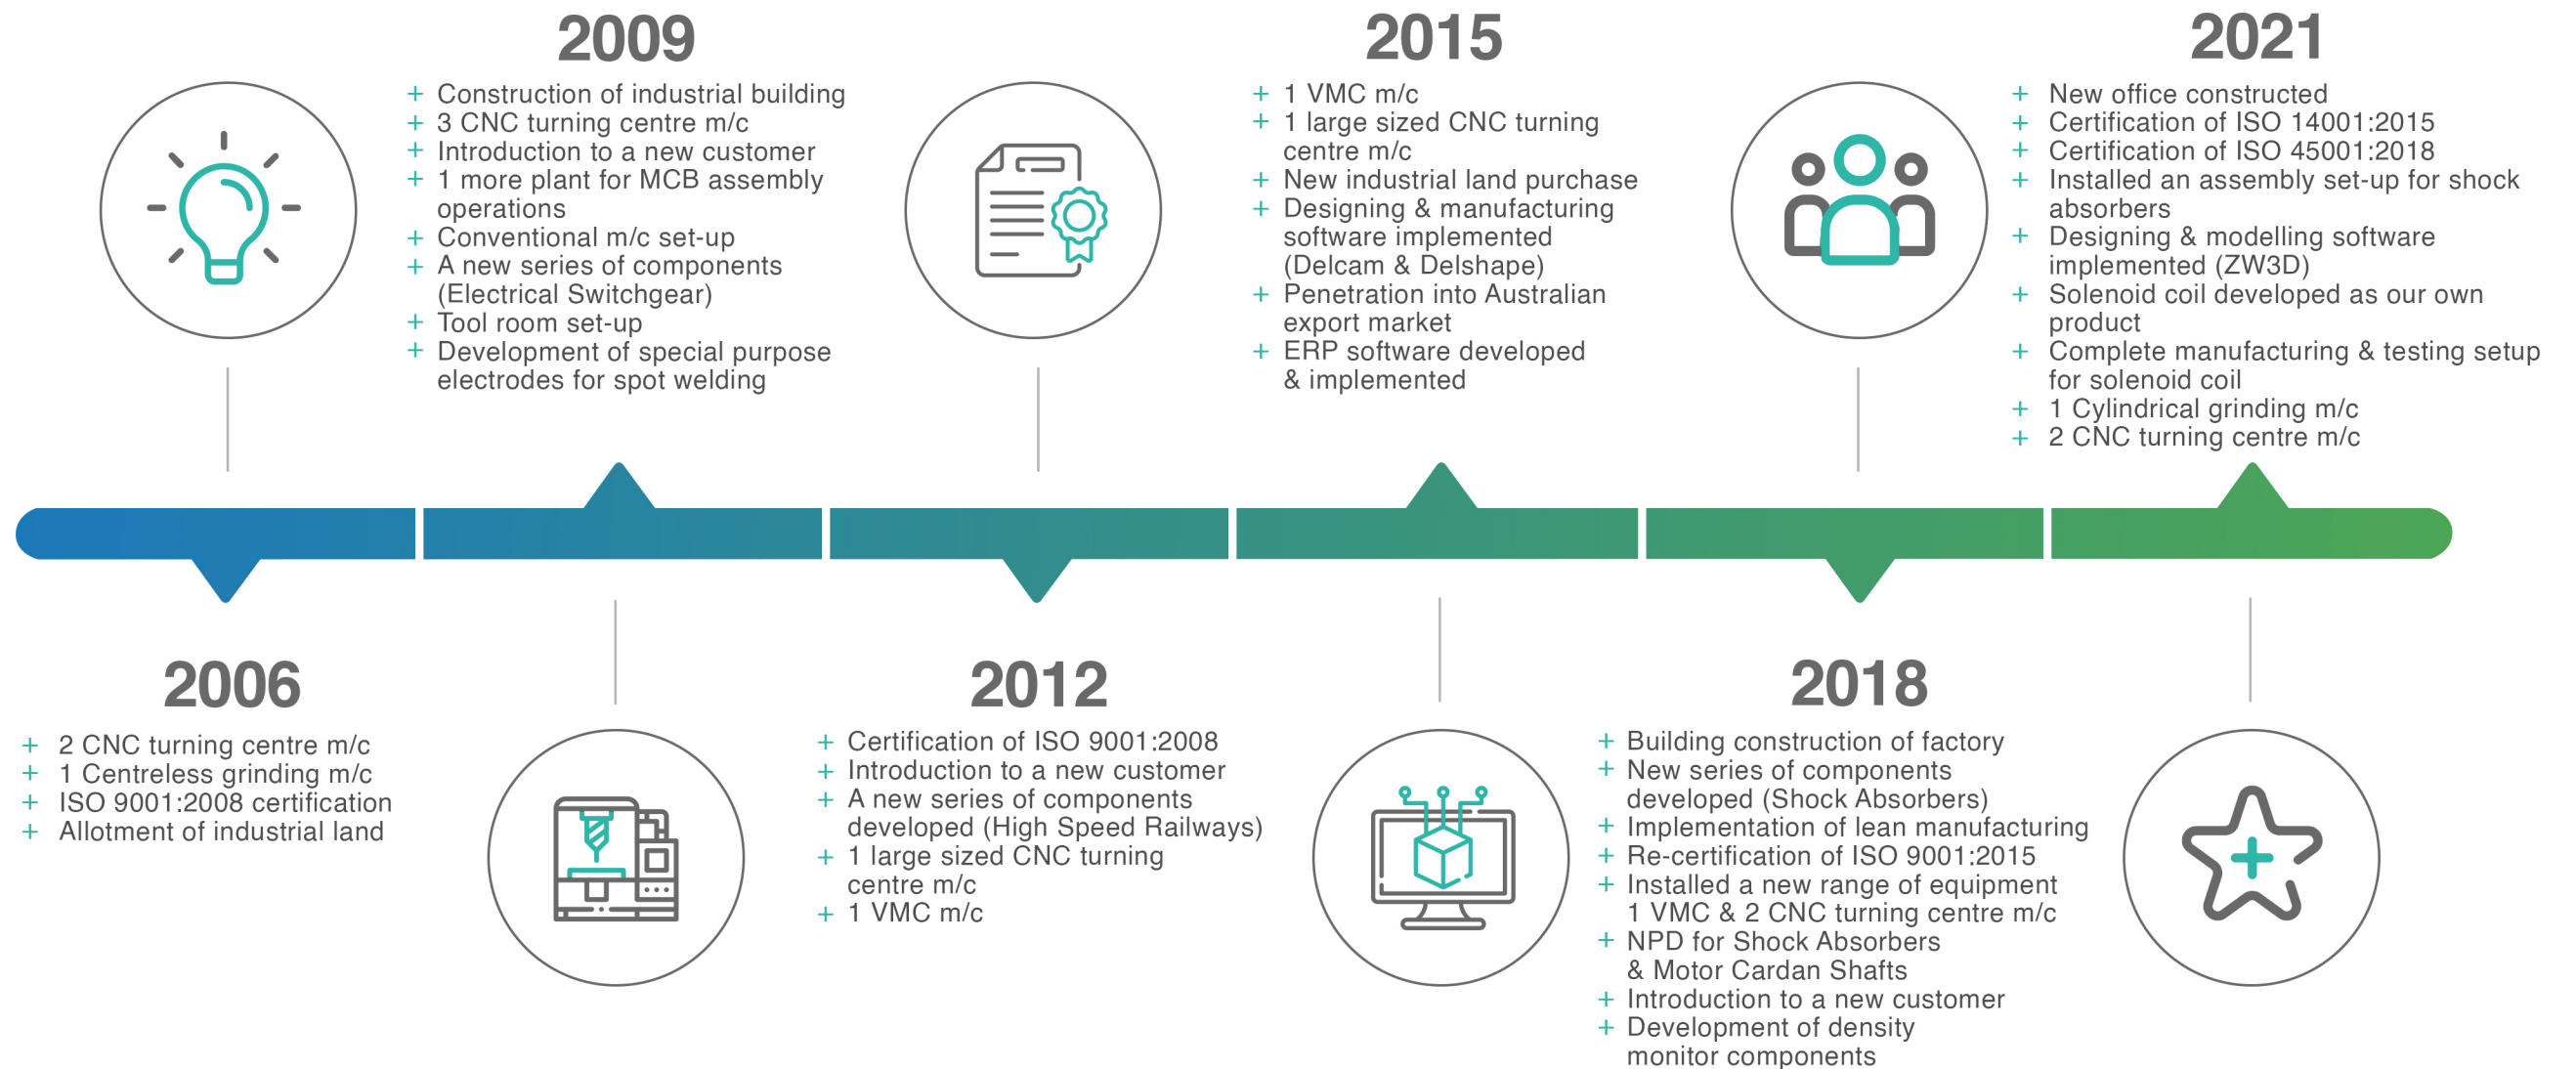

+ From Directors' Desks

All this has been a result of the positive and passionate work environment that we strive to maintain.

Mr. Ashis Kumar Pal
(Founder)

+ About Us

Our Journey So Far

+ Our Vision

Embarking the most trusted organization to go for precision component manufacturing.

Shubhneel group pursues to be amongst the top 100 global players in precision component manufacturing and supplies by delivering the best of client's demand with unconditional competitive industry pricing solution.

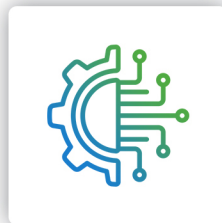

+ Our Mission

Being a promoter of sustainable growth by heavily investing in research, development and human resources.

Adopting the most nucleus manufacturing process and sustainable approaches to constantly improve and increase the bar of quality measurement parameters.

Investing massively in research & development to deliver the best of customer's demand by providing end to end solutions.

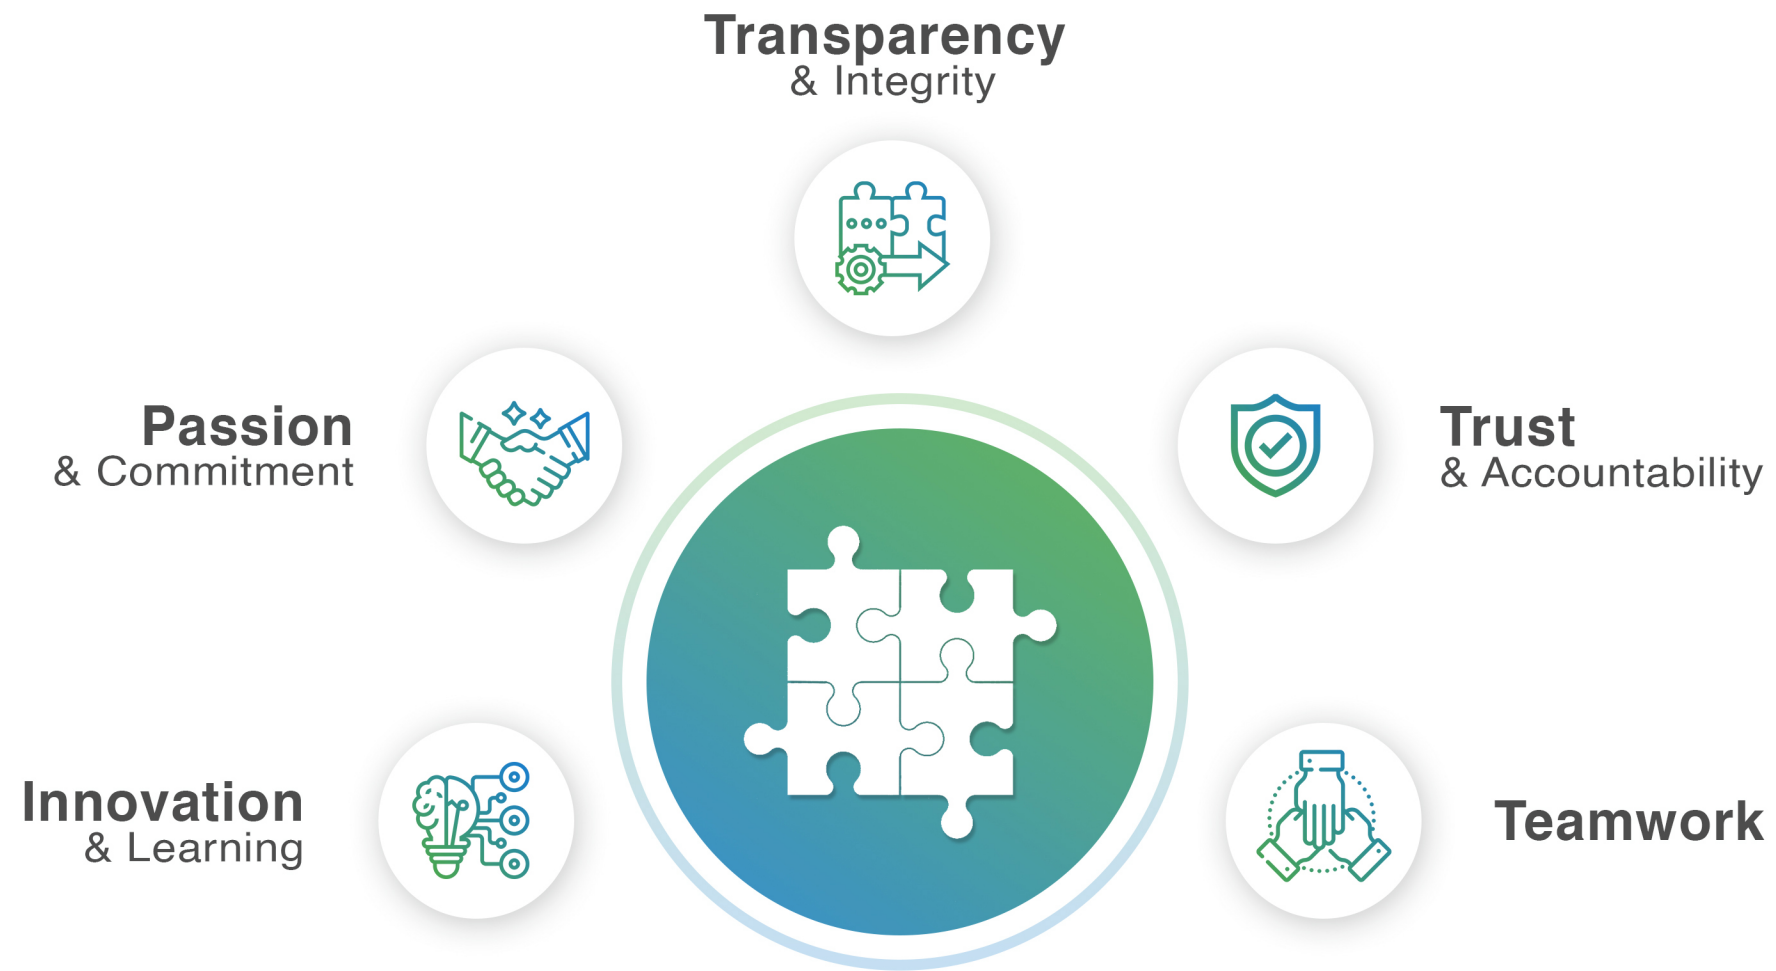

Empowering the workforce to demonstrate the best of their abilities by constant contribution in innovation achieved through thorough industrial learnings.

Edifying a customer centric approach in highly motivated team to achieve the best organizational goals.

+ Our Core Values

+ Environment Policy

Enhancing sustainable manufacturing to take care of environment by taking constant care of following aspects:

- + Conservation of natural resources with optimum usage policy
- + Waste minimization, Reuse and recycle wherever feasible
- + Preventing Pollution by following sound environment practices
- + Reducing Environmental impacts
- + Compliance of applicable legislation & regulation pertaining to environment
- + Setting and periodically reviewing the objectives in the areas of reduction of pollution, optimizing the consumption & conservation of natural resources
- + Strengthening Environmental awareness, skills and competence of our employees, Business associates through on-going training and proactive communication
- + Review, Monitor our Environmental performance

The Policy shall be reviewed periodically for effectiveness.

+ Occupational Health & Safety Policy

Keeping health at the top most priority, we tend to care for everyone in the organization by keeping a check on:

- + Prevention of injury & ill Health
- + Reducing Occupational health and safety risks
- + Compliance of applicable legislation & regulation pertaining to Occupational Health & Safety
- + Setting and periodically reviewing the objectives in the areas of reduction of injuries, unsafe act and unsafe situation
- + Strengthening health and safety awareness, skills and competence of our Employees, Business associates through on-going training and proactive communication
- + Review, Monitor our Occupational health and safety performance
- + We adhere to safety norms, rules and instructions to build safety culture in our organization

The Policy shall be reviewed periodically for effectiveness.

+ Quality Policy

Aiming to deliver the industrially accepted and standardized product by – add this line instead of:

- + Adopting world class practices
- + On time delivery
- + Competitive price
- + Excellent product quality
- + Compliance & continual improvement in Quality Management System
- + To deliver products & services in accordance with the specification and requirement of clients
- + Employee Motivation & Involvement
- + Effective Resource Management

With all this, we aim at establishing a healthy and enabling work culture.

+ What We Do?

Manufacturing

Precision machined components, engineering components, power & energy transmission components, marine engine components, automobile components, shock absorbers, solenoid coils, casting moulds and ejector pins.

Prototyping

Picking up the detailed requirements of our clients to manufacture the most viable prototype for a future ready to use product.

Jigs & Fixtures

Manufacturing custom designed tools for specific purpose driven machineries and parts of the industry.

Assembling

Having an infrastructure of highly optimized assembly line, enables to assemble most complicated components in no time.

Fabrication & Packaging

Manufacturing of metal boxes and Packaging of customer's goods as per requirements.

Contract Manufacturing

Child parts assembly, Sub assembly, assembly, testing, printing and packing of MCB & Bus Ducts by combining the best of manpower resources and optimized manufacturing methods to give a cost-efficient output.

+ Why Choose Us?

Shubhneel group offers a well-crafted product range tailor made for industry specific clients. Our ever-running engine of innovation allows us to pace up with the trends of the sector. We work as an extended arm with your team and build synergies for better product output.

With over a decade and a half of expertise, we are better able to study, design, and create an industry-ready solution for your needs, hence accelerating growth and production capacities.

+ Shubhneel Group Of Companies

www.shubhneel.com

A quadrilateral group of companies synergizing to serve the best across every industry demand.

SHUBHNEEL INDUSTRIES

- + **Business activities :** Manufacturer of precision machined components, jigs & fixtures, assemblies
- + **Land :** 37000 sq. ft.
- + **Building :** 10000 sq. ft.
- + **Employee :** 55
- + **Location:** Sector G, MIDC, Waluj, Aurangabad, Maharashtra

SHUBHNEEL METAL FABRICATION DIVISION

- + **Business activities :** Manufacturer of metal crates, metal boxes, packaging solutions provider
- + **Land :** 80000 sq. ft.
- + **Building :** 14000 sq. ft.
- + **Employee :** 5
- + **Location :** Sector F, MIDC, Waluj, Aurangabad, Maharashtra

EXCELSIOR ENGINEERING

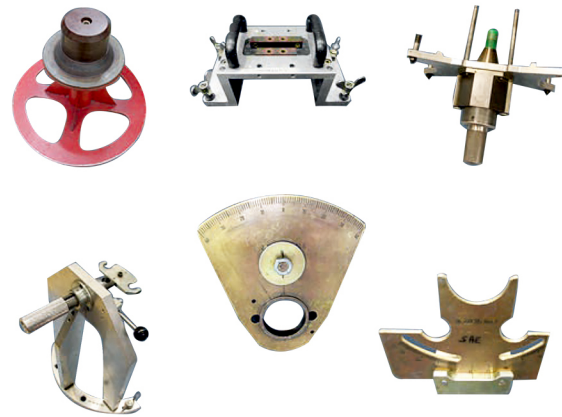

- + **Business activities :** Manufacturer of child parts, sub-assembly, assembly, printing, testing, packing of MCBs
- + **Land :** 7000 sq. ft.
- + **Building :** 6400 sq. ft.
- + **Employee :** 97
- + **Location :** Sector F, MIDC, Waluj, Aurangabad, Maharashtra

TRANSDUCT PVT LTD

- + **Business activities :** Manufacturer of child parts, sub-assembly, assembly, printing, high voltage testing, packing of Bus Ducts
- + **Land :** 40000 sq. ft.
- + **Building :** 20000 sq. ft.
- + **Employee :** 45
- + **Location :** Sector H, MIDC, Waluj, Aurangabad, Maharashtra

Our Inspection & Testing Equipments

Enriching product accuracy with a package of internationally approved inspection tools

Digital Height Gauge: 0-600mm
Micrometer Screw Gauge: 0-200mm
Radius Gauge
Filler Gauge
Air Plug Gauge

Digital Vernier Caliper: 0-300mm
Mechanical Vernier Caliper: 0-600mm
ID Caliper
Spring Caliper

2D Inspection Equipment (Trimos):
Up to 500mm
Angle Protractor
Profile Projector
Bench Center
Depth Vernier
Measuring Scale: 0-2500mm
Surface Plate: 1000x1000mm

Blade Micrometer: 0-50mm
ID Micrometer

Plunger Dial
Lever Dial

Rockwell Hardness Tester
Surface Roughness Tester

Resistance Tester
High Voltage Tester
Force Tester
Stroke Length Tester
Digital Ammeter
Digital Wattmeter

+ Our Manufacturing Infrastructure

Well-equipped operational machineries to deliver the precision in every component

CNC Turning Centre: 10 no's, Range: Diameter 6-400mm x Length 6-1000mm

CNC Milling (VMC): 04 no's, Table Size: 1000x600x600mm, 02 no's 4th Axis
Milling: 02 no's, Table Size: 600x400x400mm & 600x300x300mm
DRO Milling: 02 no, Table Size: 500x300x300mm

Centerless Grinding: 01 no, Diameter Range: 6-50mm
Surface Grinding: 01 no, Table Size: 200x600x200mm
Cylindrical Grinding

Lathe: 04 no's, Diameter Range: 6-500mm, Length Range: 5-1500mm

Bar Cut-off: 02 no's, Diameter Size: 200mm, Circular Sawing Machine

Drilling: 02 no's, Diameter Size: 40mm
Tapping: 02 no's, Diameter Range: 1-30mm

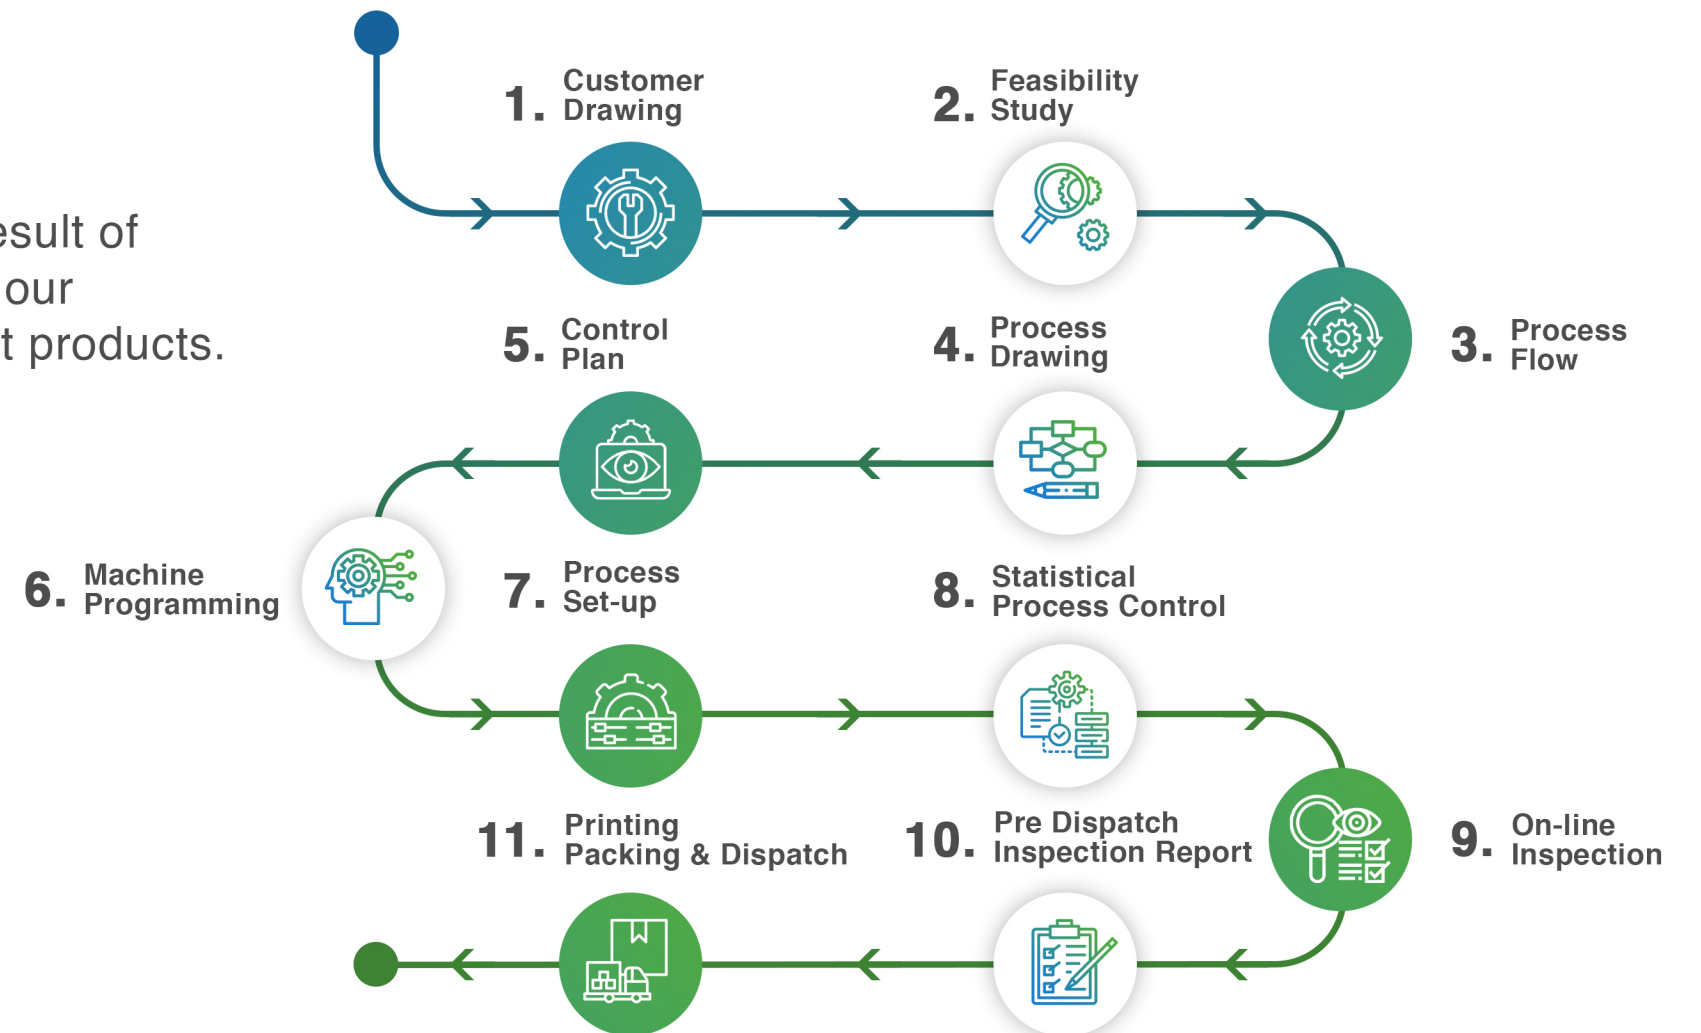

Bench Grinder: 03 no's

+ Our Creative Process

The comprehensive process lifecycle is a result of years of enriching experience, designed by our executives to manufacture the most efficient products.

+ Next 3 Years of Growth, Innovation & Globalization

- + Clocking numerous intellectual property registrations with ingenious new product development.
- + Vesting humongous resources for developing cutting edge technology in energy and power sector.
- + Strategically forming partnerships with global leaders for technological development.
- + Globalizing our product portfolio to further expand our roadmap in enhanced diversification.
- + Creating a benchmark in the industry by taking Shubhneel Industries public and being a part of NSE Small Cap Index.

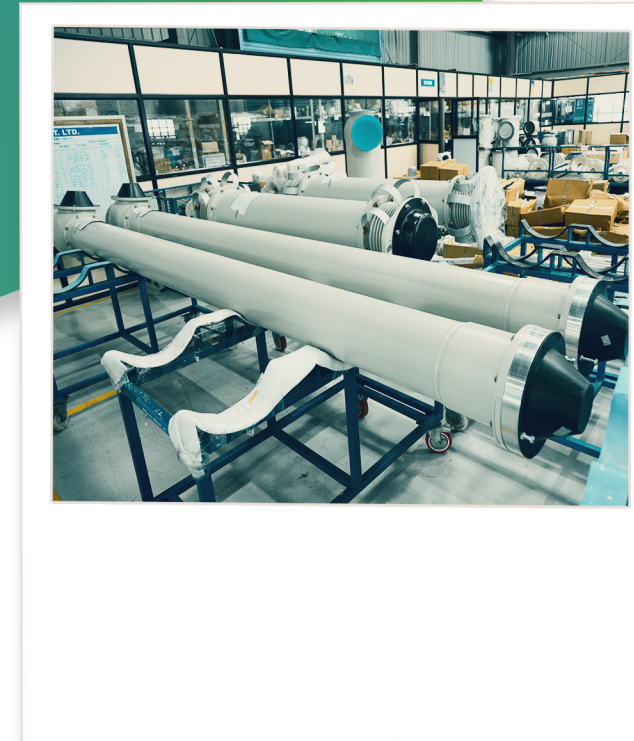

+ Excelsior Engineering Group Company

- **Customer:** SIEMENS Switch Gear Division (LP)
- **Year of establishment:** 2007
- **Location:** Sector F, MIDC, Waluj, Aurangabad, Maharashtra.
- **Total number of manpower:** 97
- **Monthly assembly quantity:** 6,00,000 NCB's
- **Business commodities:** Manufacturer of child-parts, sub-assembly, assembly and testing of miniature circuit breaker (MCB)
- **Nature of business:** Contract manufacturing
- **Rating:** 0.5A - 32A
- **Pole configuration:** 1 - 4

+ Transduct Pvt Ltd Group Company

- **Customer:** SIEMENS High Power Division (GIS)
- **Year of establishment:** 2019
- **Location:** Sector H, MIDC, Waluj, Aurangabad, Maharashtra.
- **Total number of manpower:** 45
- **Monthly assembly quantity:** 450 Bus Ducts
- **Business commodities:** Manufacturer of sub-assembly, assembly and high voltage testing, printing, packaging of bus ducts
- **Nature of business:** Contract Manufacturing
- **Rating:** 145 KV, 245 KV and 400 KV

+ Metal Fabrication Division Group Company

- **Customer:** SIEMENS High Power Division (GIS)
- **Year of establishment:** 2020
- **Location:** Sector F, MIDC, Waluj, Aurangabad, Maharashtra.
- **Total number of manpower:** 5
- **Business commodities:** Manufacturing of metal crates and boxes, packaging of customer's goods as per requirements.
- **Nature of business:** B2B

+ Awards & Recognition

They speak for our work.

“

As a validation and testimony to our efforts to contribute to the industry, Shubhneel group's consistency has been decorated by numerous prestigious laurels over the years. **Shubhneel has been a gold-rated supplier for the past four consecutive years to Siemens.**
