

## Solenoid actuators, complimenting the energy with mechanics

[www.shubhneel.com](http://www.shubhneel.com)

### Accelerating the growth of energy sector

Shubhneel industries carries a legacy of 15+ years in manufacturing precision machined components. After investing rigorously in research and development for more than 1.5 years, Solenoid Actuators was born.

At present, we manufacture Solenoid coils in two different models for our extended arm, Seimens. Additionally, linear solenoid actuators are total available in 4 different models. After successful deployment of the component in different industries, the solenoid coil is now ready to unveil the roads of global market.

### Why Choose Us

- ✓ Highly Efficient
- ✓ Compact Form Factor
- ✓ Effortless Setup
- ✓ Cost Effective
- ✓ Dynamic
- ✓ Extreme Precision

### Our Services

#### Design & Development

A team of the most skillful product designers and engineers bring the utmost power in the development phase.

#### Manufacturing

The state-of-the-art facility manufacturing unit manages to deliver the best products with minimal errors.

#### Assembly

A hybrid structure of automation and human efforts brings the most efficient assembly line to deliver faster outputs.

#### Testing & Analysis

Putting together, algorithm, and testing solutions to check the accuracy and mechanism of final product.

#### Printing & Packaging

End mile solution with manuals for product usage packaged in sturdy materials to survive through harsh transport conditions.
